

Meritor Parts

Meritor Parts - Meritor is a leading international supplier which is proudly built on a one hundred year tradition of service and quality. They focus on a broad range of modules, integrated systems and components to original machinery makers and the aftermarket for the transportation and industrial sectors.

Meritor prides itself in the company's unique energy and thinks that this energy contributes to their competitive advantage in the international operations. The business values all of their customers and would like to ensure their success while anticipating their different needs. Meritor starts with a culture that values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over 11,200 people, Meritor promotes innovation and collaboration among a team of experienced experts.

By just hiring future focused individuals, Meritor strongly believes these top-caliber workers would be able to quickly adapt to changing environments and demonstrate the performance and commitment required so as to achieve results in the competitive materials handling trade. The company empowers their teams to make sound business decisions in order to enhance the overall success of the business. In return, Meritor offers all their staff different possibilities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of drivelines, axles, suspension and braking systems designed for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives that represent the entire Asia Pacific region. This particular team is even responsible for supporting the requirements of their international engineering staff.

The Quality team at Meritor is a dynamic and customer-focused group who is dedicated to ensuring optimum progress at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 nations.

They have their supplier network that is specifically located so as to support the development of the business. Every regional team has internationally supported initiatives, quality systems and centralized in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a fact-based, data-driven approach to decision making within each and every part of the business. The DFSS or Design for Six Sigma ensures product reliability within every region. The team is even included transactional Green Belts who apply Six Sigma tools to business processes and implement lean techniques.
