

## Advance-Nilfisk Parts

Advance-Nilfisk Parts - Imagine how long and tedious it will be to tidy up after a party, with no assistance from equipment. Not too long ago, the dust from carpets and upholstery had to be beat out of them by hand; brushes, cleaning cloths and brooms were the top cleaning products during that time.

The man who founded Nilfisk-Advance, P.A. Fisker, began as an electrical engineer who liked to work on electrical motors. After founding his company in 1906, he began to produce motors to drive drills, coffee grinders, fans and machine tools. Mr. Fisker's dream from the start was to have a global company advertising products worldwide.

The Nilfisk C1 was a remarkable breakthrough for the cleaning business. This ground breaking vacuum cleaner, invented by Mr. Fisker, weighed just 17.5 kilos and could be operated by a single individual. This invention came in a time where various cleaning equipment were very big and needed at least 4 operators, thus, the Nilfisk C1 transformed everything and developed the manner we clean forever. The genius behind these first cleaning equipment remains unparalleled. Cleaning equipment provide a brilliant solution to an existing dilemma; things get dirty and have to be cleaned regularly, without too much effort.

Slowly, the business Nilfisk-Advance expanded throughout the years. During the early 1980's the company grew fast when the company became a part of the NKT Group. With new owners on board, they concentrated on driving Nilfisk-Advance ahead within the trade, trying to be an active global player in manufacturing professional cleaning machines. Nilfisk-Advance is presently located in every part of the world by gradually obtaining many small businesses to be able to expand their product selection and presence in new markets. They are proud to present different cleaning solutions to meet each and every need.
